## MINING, BUSINESS AND STOCKS.

### STORAGE PLAN FOR OIL TRANSACTIONS

May Trade in Warehouse Certificates On Various Oil Exchanges in The United States.

An important measure that is fraught with profitable business for California stock exchanges and others, is a plan for storing petroleum from southern California wells in batteries of large steel tanks, and the issuance thereupon of certificates of storage in units of 1,000 barrels. The purpose is to make these stored petroleum certificates like the grain certificates which are so ex-tensively dealt in in Chicago, says the

Boston Financial News.
Vice President Joseph Ball of the Los
Angeles Stock exchange is now in this
city forwarding this matter through
conferences with a number of capitalists largely concerned in California indertakings. In an interview, Mr. Ball said:
"The primacy of California in petro-

"The primacy of California in petroleum production is well assured. The
productive capacity is at the volume of
\$5,000,000 barrels a year. Four years
ago the entire production of the United
States was but 187,000,000 barrels. California's monthly yield of petroleum is
now just what the nation's annual
production was 40 years ago. The
most pressing problem before California
petroleum producers, and for all in the
east and west, who are concerned in
California petroleum stocks, is the
storage situation. For the petroleum
producing fields of the central west,
southwest and east, the storage capacity
is about 100,000,000 barrels. California's
storage capacity is only about 25,000,000 barrels, or only enough for four
months' consumption. We need facilities for storing sufficient for a year's
consumption. For lack of storage facilities many millions of barrels of California petroleum have been lost in seepage—in one recent case, rapid and copiage—in one recent case, rapid and copicus flowage from a great well-ran off, 5,000,000 barrels more than could be stored, and of that flowage a great deal was lost in scepage. TYPE OF STORAGE.

"The best type of storage tank is made of steel; holds 55,000 bbls., and costs \$12,500. A properly planned and constructed system of storage and pipe line distribution for California's wells would give it great deal of business to the steel mills and kindred industries. I find in talking with the heads of all the clearing house banks in California, that in the event of the carrying into being of the purposed petroleum storage certificates, the banks will lend freely upon the certifipetroleum storage certificates, the banks will lend freely upon the certifi-cates as collateral, and these certifi-cates will be listed on our Los An-

cates will be listed on our Los Angeles stock exchange.

"The Los Angeles stock exchange began a few years ago with seats at \$5. Today a sent sells at \$3,000. The exchange operates actively in 30 oil, 20 bank, 30 mining, 25 industrial and 10 public service stocks, and dc 3 a good deal in 25 kinds of bonds. We have had but one failure of a member slince the exchange was organized. All the members are residents, except one, who is a New Yorker, and who, being on a pleasure trip in southern Callfornia when the exchange was formed, bought a seat for \$5. He was proffered \$3,000 for it lately and declined to sell.

"General banking and commercial conditions in southern California are excellent. Apparently, we are, in all that relates to sound developments, moving as rapidly as is healthy and wise as to agricitural, mining, and manufacturing. This is incontestably shown by the clearances of California banks."

#### MARKET IS BRIGHTER.

Trading More Active With Prices Somewhat Higher.

There was a decidedly better tone to the local exchange market this morning, with more strength exhibited by the securities. Nearly every stock traded in was at a better price than during last week. Colorado remained unchanged at 53 cents, Columbus Con-solidated sold at 37 cents. Iron Blos-som was up to 75 cents throughout the morning. May Day was fairly strong this morning, selling at 6 cents. Considerable activity was shown in Ope-hongo although the price, under heavy selling, dropped from 23 cents to 2015 During the session 5,300 shares of this security changed hands. Uncle Sam reached a new high price of 28 The total number of shares of stock

that changed hands this morning was 33,540, while the amount paid out was

On the curb market there was but little of interest. Opex developed considerable weakness and sold as low as 29½ cents in spite of the hands behind it to bolster it up. The sales on the curb market were: 3,500 shares of Bingham Copper at 1842 cents; 1,100 shares of Opex at 3042 cents; 1,200 at

Guggenheims Put in Process for Zinc Dust.

The manufacture of zine dust, or zine fume, as it is sometimes called, is a new industry in this country, although it is somewhat older in Germany. The it is somewhat older in Germany. The United States Zinc company sent a representative to Germany to learn the details of the process, secured the necessary equipment for its plant at Pueblo, Colo., and for the last two months has been turning out about 500 pounds daily. It is reported that the capacity of the plant will soon be doubled. The United States, Ties company is sub-United States Zine company is a sub-sidiary corporation of the American Smelting & Refining company, Zine dust is used in the cyanide proc-

ess in precipitating the gold from the solution that has been employed in leaching the one. It was introduced in this country by C. W. Merrill at the Homestake plant in South Dakota, and the method has been adopted in many of the mills that have been creeted during the last few years. The chief advantage in the use of zinc dust instend of zinc shavings is that it permits the immediate recovery of the gold. The consumption, which is now probably under two tons daily in this properly interesting. The American product is selling for 6½ cents a pound, it is reported, while the German product has been quoted at 9 cents. Among the largest consumers in the United States are the Homestake and the Goldfield Consolidated.

Zine dust is a fine powder that will

onss through a 100-mesh screen. nighly inflammable, and its manufacalls for careful protection against explosions.

### CAME TO PURCHASE BINGHAM PROPERTY

Recent Visit of Nevada Consolidated Man Said to Have Been to Secure Claims.

According to information from Ely the visit of E. E. Vanderhoef, superintendent of steam shovel operations at the Nevada Consolidated property at Ely, to Salt Lake last week was to negotiate for the sale of a group of copper claims at Bingham close to the Utah Consolidated property.

While in charge of the steam shovel work at the Boston Consolidated por-phyry mine several years ago Mr.

work at the Boston Consolidated porphyry mine several years ago Mr. Vanderhoef picked out some valuable property, or at least he so judged it. This was beyond the limits of the present mined area. Relative to the trip the Ely Expositor says:

"The object of the present trip is to close up the sale for the valuable ground. The possessions which Mr. Vanderhoef and his associates contemplate purchasing have been subjected to a rigid examination by John M. Haley of this city, an engineer on the ley of this city, an engineer on the staff of the Guggenheim interests. It is thought that the necessary papers will be signed up at once if the report of the examining engineer is satisfac-

#### BUYING GOLD PROPERTIES. Negotiations on for Jennings Property

In California,

According to a letter received this morning by Col. Kitt Carson from Charles Adams, discoverer of a rich gold district 20 miles north of Park, Arizona, and in California, there is a great deal of activity there at present and a number of properties have been purchased, while there are many more under bond and lease. Two parties it is said are negotiating for the Jennings property, which is fairly well developed. Property on nearly every side of the Golden State and Carson-Clayton mining companies has been taken up under bond and lease.

Mr. Adams writes that the vein from which ore running from \$2,900 to \$5,000 in gold was found on the Arm and Hammer claim of the Golden State has been opened again about 500 feet south In California.

been opened again about 500 feet south of the first discovery. At the new of the first discovery. At the new opening the ore is said to be from four to five feet wide and carrying high val-

#### CONCENTRATES.

Matt Dougherty has gone to the Carbonate Hill property in Morgan county to spend the next month. He says the property is ready to ship.

F. S. Pheby of Ely vesterday made a visit to the Utah Copper company nine at Bingham. He was surprised at the great amount of work that is being done on the mountain side there.

The old Jordan mine at Bingham will again be in operation on Tuesday, after being closed down about two weeks to allow the compressor to be put in shape and the machinery to be thoroughly overhauled. This work did not take as long as expected.

According to a special dispatch over Pollock & Co.'s private wire this morning, the visable supply of copper in Europe on Oct. 1 showed a decrease of 1,700 tons.

Irving Ernst, 170 Broadway, has been appointed receiver for B. H. Scheftels & Co. by the United States court. The law firm of Hays, Hirschfield & Wolf has been appointed as attorney for the receiver. J. B. Jenson has returned to the Good

Springs, Nevada, district, where he has charge of the Ninety-nine Copper company. Rapid progress is being made on the

Rapid progress is being mate of the Bingham & Garfield railroad. It is declared that by Nov. 15 the grading work will be finished within three miles of the Utah Copper mine. It will then be necessary to put in the bridges and drive the long tunnels. On account of the breaking of the

bins of the St. Lawrence mine at Butte, the property has ceased ship-ments from 40 to 60 days. While new bins are being built the company will retimber the shaft, which has been bins of the St. Lawrence min contemplated for some time. A dispatch from E. W. Hulse & Co.

A dispatch from E. W. Huse & Co.
of Ely confirms the statement that the
Cole-Ryan interests have purchased the
East Ely townsite and all its water
rights, which include the supply of Steptoe and Murray creeks. The water supply is the largest in the entire

More water has been struck in th shaft of the Escalante Mining and Milling company. The management is somewhat discouraged and it is probable that the big flow of water found in the two shafts will be utilized in irrigating several thousands of acres of and on the Escalante desert.

Gen. Manager E. J. Raddatz of the Tintic Standard says that satisfactory developments are being made at the property. The drill from the 1,000-foot level is cutting some good-looking quartz carrying two ounces in silver and \$2.20 in gold. It is believed that when the contact is reached good ore will be found.

According to information from Winnemucca 26 sacks of picture rock were recently high graded in the Seven Troughs Florence lease on the Seven Troughs mining company property. Some of the quartz ran as high as \$40 to \$100 a pound. The ore was crushe by hand, resacked and shipped to th Hazen sampler by team, giving the miners a handsome profit.

An answer has been filed in the con-demnation proceedings filed by the Bingham & Garfield railroad against the North Utah Mining company, the Bight Hon William Hondy the North Utah Mining company, the Right Hon. William Hood Lord Waleran and the Hon. Cyril A. Liddle, and others. It is asserted that if the company is given a right of way the North Utah would have its dumping ground cut off and its buildings would be destroyed by boulders in the construction of the railroad. The defendance are for \$5,000 for the ground and ints ask for \$5,000 for the ground an l \$30,000 damages.

Jesse Knight has secured control of the Utah Ore Sampling company and now has all the independent ore samplers in the state. The officials of the company now are: Jesse Knight, president: A. W. Gates, general manager; J. William Knight, W. Lester Mangum J. A. Stallings is secretary. Ernest R

#### WARD ENTERTAINMENTS

Nineteenth Ward-A forewell enterertainment will be given in the Nineteenth ward chapel Tuesday eve-Nineteenth ward chapel Tuesday evening in honor of Elder Reuben T. Dahlquist prior to his departure on a mission to Sweden next week. Among those who will take part are: Gilbert Savage, Laura Cook, Stella Angey George B. Margetts, Little Miss Margarett Browning, Miss Chloe Larson, Alfred Cardwell, Mixed quartet and Bishop O. J. P. Widtsoe.

#### AVIATION MEETINGS FINANCIAL FAILURES

Washington, Oct. 3.—The principal British and continental aviation meetings this year resulted in financial loss to their promoters aggregating \$375,000, according to a report to this government by Consul J. N. McCunn of Glasgow, Scotland. The losses were distributed among aviation meetings as follows:
Lanark, \$40,000; Bournemouth, \$50,000; Blackpool, \$75,000; Rhelms, \$100,000, and Nice, \$110,000.

Nice, \$110,000.
At the Lanark, Scotland, meet, upwards of 200,000 persons paid admission. Most of the airmen lost money at the big meetings and the only result of value which recent flights produced in return for the great expenditures was the popular interest groused in the science,

## HIGHER PRICES CAUSED SELLING

New York, Oct. 3.-There was a lack of decision in the tone of the opening of the stock market today. Changes were only small and were mixed between gains and losses. The dealings were very light. General Electric rose 1. Chesapeake & Ohio spurted to above 80, after which the whole market sagged. Liquidation

the whole market sagged. Liquidation in American Sugar and profit-taking in Reading and Union Pacific accelerated the decline. American Sugar preferred broks 3 points, the common 13. Western Union 2 and Interborough-Metropolitan preferred 1. The market was steady with prices a trifle better at 11 o'clock.

Speculation moved cautiously for an hour under the influence of the low surplus reserve shown by the weekly bank statement. A steady absorption of offerings made itself felt on prices in increasing degree. A large number of speculities made wide advances and the market leaders were later to come into the movement. Wisconsin Central rose 4. Chiesapeake & Ohio 11 and Reading, Lonisville & Nashville, Atlantic Coast Line, Northern Pacific and Great Northern preferred 15, but otherwise only a numerous list that had risen 1 to 11 by noon.

Bonds were steady.

noon.

Bonds were steady.

Some of the standard stocks went higher. United States Steel and Union Pacific advanced over a point. Elsewhere the changes were slight outside of the minor stocks. Pacific Telephone advanced 4t. American Linseed preferred 3f, Big Four 2f. National Biscuit 2. Texas company 1f. St. Paul 1f and American Locomotive 1f.

13. St. Paul 18 and American Locomotive
14.

Heavy purchases of United States Steel
were made, about 70 blocks of a thousand to 1,500 shares changing hands frequently. Union Pacific was also absorbed in striking manner and the whole list
reached a higher level. American Sugar,
which had lost several points in the forenoon, rallied to 1142, which put it 18 above
Saturday's close. Inactive stocks made
a good showing. Chicago & Alton going
up 3 points, Erie second preferred, Kansas City Southern and North American
13 and Norfolk & Western 15.

The market closed rather weak.

The advance met sufficient selling in
the final hour to check it and to cause
fractional reactions. There was a sharp
contraction in the dealings when the advance halted American Sugar 23 over
last week. Selling was renewed at the
last to some degree.

#### PRODUCE.

CHICAGO.

Chicago, Oct. 3 .- A big decrease in the Chleago, Oct. 3.—A big decrease in the amount of wheat on ocean passage had considerable to do with making price advances here today. The lightness of shipments to Great Britain was reported to have led to some anxiety for distant supplies: There was a rair commission house buying here in consequence and shorts were inclined to cover. The opening was unchanged to 4 higher with December extending over the entire range at 97 to 974. Later the market touched 975. touched 972. Scattered purchases, some of them by cash houses, lent firmness to corn. December started 1 to 2 higher at 491 to 491, reacted to 4921 and railled to 49462. Oats were rather quiet but the tone was steady. December opening 161 up at 33 to 334, declined to 322, and recovered to 321.

at 33 to 233, declined to 323, and recovered to 324.

Local selling caused an initial break of 5 to 273 in provisions, but a fair demand developed at the lower level, First sales of the January delivery were at 17.69 to 17.623 for pork; 10.60 for lard, and 9.55 to 9.423 for ribs.

Wheat—There was some further advance but a surprising increase in the American visible supply led to a decline. The close was weak with December at 93473, a net loss of \$762\$.

Corn—Wet weather was a bullish factor. The close was steady with December at 494, a net gain of \$\frac{1}{2}\$.

## W. S. DALTON TO BE SACRIFICED

Program in the City Council Tonight to Keep Dininny Silent.

#### BELLE LONDON'S FINE HAND

Another Case Wherein It Is Not Good For a City Official to be

When the city council assembles tonight W. S. Dalton, the former city prosecutor in the police court, will no doubt be offered up for sacrifice. This is the program, and Mayor Bransford has stated that he has 10 of the city fathers who will vote Mr. Dalton out of

office,

The probable action is the outcome of the row on between H. J. Dininny, city attorney, and Police Judge Whitaker. Dininny was sentenced to one day in jail for contempt of court by Judge Whitaker, and Judge Morse of the district court has the matter under advisement on appeal made by Mr. Dining. From the way the matter stands, it

From the way the matter stands, it stooks like Dalton is being made the scapegoat for a compromise between Mayor Bransford on one hand and Mr. Dininny on the other. The police have won, say the hangers on, and Belle London, and those who pay tribute to her are in the ascendency, it is declared.

to her are in the ascendency, clared.

Dalton, at all times, as the records of the court show, acted on the orders from Dininny. It was he who stepped into the breach between Judge Whitaker and Dalton over the Thurston Brown-Officer Pitts assault casewhich has never come to trial—and precipitated the four-cornered fight which now lands him out of office without a lob.

ROGERS MAY BE NAMED.

without a job.

ROGERS MAY BE NAMED.

Judge Whitaker took the wind out of the sails of Dininny when he rose in the police court the day the Virgil McMann vagrancy case was called and attacked the right of Whitaker to issue complaints. The judge then imposed the contempt sentence and later appointed E. A. Rogers, special prosecutor. That tonight the city council will make his appointment permanent is now assured according to those around the police headquarters who say they are in on the "frame-up."

That the compromise was made along political lines is maintained by some staunch "American" party men at police headquarters. One man who controls hundreds of votes among the worst element in town—thieves and thugs and stockade hangers on—maintains that if the city council ousts Dalton, and appoints Rogers, he will take his votes elsewhere, Rogers is said to be in partnership with E. A. Walton, who is known as the attorney for Belle London in private matters, and if his appointment is made permanent the police court is a farcial travesty on justice and vicious element has captured the only safeguard between the good citizens of Salt Lake, their homes, and peace and a well governed town, and the depredations of the hundreds of lawless charcters who are flourishing under the present regime of the police court, say some conscientious police officers.

Under the present-conditions the pofice court in another 30 days will be in the same boat as one famous politician who didn't know "where he was at." Complaints are thrown out each day, because there is some error in drawing them, drunks who come time and time again are dismissed with an "admonli-

because there is some error in drawing them, drunks who come time and time again are dismissed with an "admoni-tion." This is said to be a good political tion." This is said to be a good pointed move because it is nearing election. Cases are continued because "the city is not ready." If this continues at the present rate the court will be so clogged that there will be so many cases on hand that it will take months to try them if there will ever be an attempt to do so.

to do so.

In the same manner the fact that so many continuances are granted and other delays allowed that witnesses go away and the city is losing money each day. Another thing is that wise attorneys are taking advantage of the present conditions and delaying cases and calling for jury trials to make the city ose just as much money as possible, MANY REGRETS.

Much regret is expressed at the fate that seems to be in store for Dalton at tonight's meeting of the council. Thos tonight's meeting of the council. Those who talk express sympathy for him because he is a vigorous official and did his duty as he saw it at all times. Again those who are in on the political "know" say it is a bad move to dispose of a good vote getter like Dalton as a sacrifice to the vanity and mistakes of H. J. Dininny, his chief. It is said that Dininny has threatened Mayor Bransford and Chief of Police Barlow with some startling stockade disclosures if the contempt cases against him were startling stockade discosures it the contempt cases against him were pushed. A compromise was effected whereby he was to come back into the fold and make up with Bransford and the police, if Dalton were "canned" and Rogers get the place. The mayor and the police seem to have made a threwd bargain, the attaches of the court fay. court say.

In the meantime Dalton is the only loser. He is a man of family who is paying for a home here. He has done good work for the party and the real wise ones say that to swap horse right now in the middle of the stream and change a good reliable burden carrier, is a bad political move, besides showing great political ingratitude to Dalton. That this move if made by Dalton. That this move if made by the council tonight will precipitate a serious dissension in the "American" party, the real boys—who sit long and often at the public crib and fatten thereby—affirm most vehemently.

#### CITY COUNCIL FORECAST.

Will Probably Wait on Decision Before Considering Ordinance.

Little will be doing at the session of the city council tonight unless the advocates of the segregation of the police court prosecutor from the city attorney's office appear with a measure to that end. It is not likely that this will be done, as Judge C. will be done, as Judge C. W. Morse has not yet handed down an oninion in the Dininny-Whitaker contempt case. Members of the council naturally are playing a waiting game pending a secision in the case.

Judge Whitaker has asked that the mayor appoint a prosecutor, who is not under the jurisdiction of the city attorney's office. The statutes, however, do not appear to be bread grough.

ever, do not appear to be broad enough

ever, do not appear to be broad enough-in the way of providing salary for such an officer.

The recommendation of the fire com-mittee that the contract to furnish 5,000 feet of fire hose for the fire de-partment be awarded to the New Jersey Car Spring company at 82.5 cents a foot will go to the committee of the whole.

Action will likely be taken on the

of the whole.

Action will likely be taken on the matter of compelling wholesale druggists to take out a retail liquor license, as well as a wholesale liquor license. The chief of police will present a list
